

LEWES ARBORETUM PROJECT

The Friends of Lewes is initiating a project that, if successful, would lead to extensive tree planting in the Lewes townscape. In support of that, your suggestions of locations for planting trees of any species would be extremely useful.

FoL will integrate your suggestions into a proposal for a Lewes-wide scheme. Our goal is to add another 120 species from around the world to the 160 already estimated to be present.

Suggested locations can be public or private ground, anywhere in the town, as long as they're visible from public ground. Please be as specific as possible (for example, if you right-click the location on Google Maps, and click "What's here?" the longitude and latitude appear in the search box, for example 50.880388, 0.008489).

You can complete and save this form in Adobe Reader, then print and mail it to

Lewes Arboretum
1 Riverdale
Lewes BN7 2JL

or email it to arboretum@friends-of-lewes.org.uk

SUGGESTIONS

#	Location	Map reference
	Example: On the roundabout at the bottom of Mayhew Way	50.879008,0.014216
